

Seasonal Ecologist Vacancies

Richard Green Ecology has several seasonal vacancies this summer (May to September), undertaking ecological surveys, report writing and providing admin support within our existing ecology team. We have five vacancies, one full time, and four 12+ hours per week, including evenings and overnight/dawn bat surveys. You would be expected to be available on Monday to Thursday evenings for bat surveys. You will need your own car to be able to make your way to our office, to pick up points, or to survey sites. Previous experience is preferred, although training will be

Requirements

You need to be enthusiastic, committed, and prepared to manage a varied timetable and workload as surveys will involve night work.

You should have the following attributes:

- Interest in pursuing a career in ecology/environment;
- Some knowledge of UK wildlife and ecology;
- Experience of undertaking bat or other wildlife surveys would be an advantage;
- Good observational and recording skills;
- Ability to work in a team and to communicate effectively;
- Excellent time management.

You should have a full UK driving licence and own car.

You should be physically fit enough to work on large outdoor sites.

Start date: End of April/beginning of May 2018

Period: 5 month contract (may be extended)

Hours: FT 37.5 hours, PT 12 hours (will include days, evenings/nights Monday to Thursday and occasional Fridays). Overtime opportunities.

Location: Office based in Woodbury Salterton, near Exeter.

Closing date: 23 February 2018
