

Richard Green Ecology 2027 courses

Date	Course	Start time	Finish time (approx.)	Notes
14 January 2027	Hibernating Bats in the UK	9:00	18:00	Classroom/Field
11 February 2027	Hibernating Bats in the UK	9:00	18:00	Classroom/Field
11 March 2027	Hibernating Bats in the UK	9:00	18:00	Classroom/Field
17 March 2027	Badger Ecology and Survey	10:00	16:00	Classroom/Field
18 March 2027	Badgers and Development, Licences and Mitigation	10:00	15:00	Classroom
8 April 2027	Reptile ecology, survey and mitigation, including adder handling	10:00	16:00	Classroom/Field Start times may be subject to change in warmer weather.
15 April 2027	Great Crested Newt Ecology and Survey Techniques (Part 1)	15:00	23:00	Classroom/Field
16 April 2027	Great Crested Newt Ecology and Survey Techniques (Part 2)	07:30	10:00	Field Visit
22 April 2027	Introduction to Bat Ecology & Survey Techniques	10:00	16:30	Classroom
19 May 2027	Hazel Dormouse Ecology and Survey Techniques	10:00	16:00	Classroom/Field
20 May 2027	Hazel Dormouse and Development, including Licensing	10:00	16:00	Classroom
30 June 2027	Otter Ecology and Survey	10:00	16:00	Classroom/Field
1 July 2027	Otters and Development, including Mitigation. Focusing on Highway Projects	10:00	16:00	Classroom
14th, 15th & 16th September 2027	Advanced Bat Survey Techniques	Day 1 12:45	01:00	Classroom/Field
		Day 2 11:00	01:00	Classroom/Field
		Day 3 11:00	15:00	Classroom
22 September 2027	Hazel Dormouse Ecology and Survey Techniques	10:00	16:00	Classroom/Field
23 September 2027	Hazel Dormouse and Development, including Licensing	10:00	16:00	Classroom
6 October 2027	Badger Ecology and Survey	10:00	16:00	Classroom/Field
7 October 2027	Badgers and Development, Licences and Mitigation	10:00	15:00	Classroom
25 November 2027	Hibernating Bats in the UK	9:00	18:00	Classroom/Field
16 December 2027	Hibernating Bats in the UK	9:00	18:00	Classroom/Field
